At Snow Valley Racing Team, we want to take competitive skiing in Belgium to the highest level. We do this by having our athletes participate in as many national and international competitions as possible, always under the guidance of a professional team of experienced, qualified trainers.

Our approach is holistic: we invest not only in technical and physical development, but also in the social and personal growth of our skiers — and all in a warm, family club environment.
To achieve this mission, we continue to innovate with strong training concepts and guidance programs. In this way, we support our members step by step: from young, enthusiastic athletes to athletes who compete at the top level.
